

VILLAGE OF SAUGERTIES, NYS DOH LSLI, NY 5503386

The entire service line inventory is available to view at

The Village of Saugerties Municipal Office

43 Partition St., Saugerties, NY 12477

(This document is numerically ordered by house number.)

<https://tinyurl.com/SLIVOScolor>

Several of these lines have been updated within this document as well, and will remain a work in progress until completion with the EPA.

Our records show the following:

Green highlighted = unknown material (a green letter)

Lavender highlighted = lead line (a lavender letter)

Pink highlighted = non-lead (You're all set-you did not receive a letter!)

Missing=Not Verified (we do not have records in our office- you received a green letter most likely as well)

This does not mean your service line IS this material.

This is just the last known recorded material we have in our office.

This is only to record an inventory of and regarding the service LINES that deliver your water NOT the water itself.

How can you help us update/confirm this information?

*DIY:

Watch this video: **<https://youtu.be/PcO5FCE9Vfw?si=1E0JyjgDJmKOxBtI>**

*Do you know the answers to correct our inventory?

Use this form: **<https://forms.gle/wSrf36VVSsw5QKRP1A>**

*Fill out the PDF Update Form attached and return to **vdavide@villageofsaugerties.org** with a photo if possible

*Make an appointment for a field inspection by contacting Victoria by phone at **845-246-8958** or by email at **vdavide@villageofsaugerties.org**
